THE BITTER END . . . Motorist who waited until the final days to renew their auto license registration found the weather against them as well this week. In addition to the long lines Monday and Tuesday, which involves waiting and waiting, many of those in line were pelted with rain. Waiting in line on the final days is an annual affair, Department of Motor Vehicles officials will tell you. (Herald Photo)

Play Called Off
 The Episcopal Players production, scheduled to be given in St. Francis Episcopal Church, Palos Verdes, this Saturday, has been cancelled because of a conflict in dates, church officials announced yesterday.

LARGE LAKES

- GARDENERS CHECKLIST**
1. Spray for peach leaf curl before buds open. This fungus disease attacks nectarines and peaches.
 2. Spray dormant deciduous shrubs and tree thoroughly now for Red Spider Mite and scale. Many fungus diseases are controllable only during this period because it is possible to use a stronger spray at this time. This step taken while plant and pests are dormant will eliminate much grief during the growing cycle.
 3. After spraying job is completed, clean and put away equipment carefully.
 4. A good clean-up job in the garden before spraying is begun will make the job easier.
 5. Check dahlias in storage to make sure they do not dry out. A light sprinkling with water will prevent this damage.

El Camino to Choose Cast For Musical
 All roles for the 1958 spring musical, "Song of Norway," are still open, according to Burnett Ferguson, director of the annual El Camino College production. Encouraging interested aspirants to try for parts at auditions Feb. 10 at 7 p.m. in the Green Room of the Campus Theater, Ferguson noted that audition scripts are now available in the music library on campus. "Those trying out for singing parts should be prepared to sing at auditions," the director emphasized. Although some try-outs have already been conducted, no parts have been assigned to date; and no casting will be accomplished until all auditions have been completed, Ferguson noted. Additional talent is needed to stage the Grieg musical, acting, singing, and dancing parts being available. Performances will be staged on May 8, 9, 10, 15, 16, and 17 in the Campus Theater.

WEEK END TOLL
 About 40 per cent of all fatal accidents occur during week ends.

Youngsters Can Take Classes In Gun Safety

Did you know that it is illegal to:
 Fire any type of gun, including beebee guns, in Los Angeles County, except on authorized rifle ranges or hunting areas.
 Carry a concealed weapon on your person or in your car?
 Carry a loaded firearm in your car?
 Hunt any kind of game without a valid hunting license?
 These and other rules about hunting in California will be presented to potential young hunters in the area in two classes to begin soon. Youngsters under 16 must have passed a course in hunter safety before they can get a license.

Classes Set
 A gun safety course will open at South High School, 4810 Pacific Coast Hwy., Thursday, Feb. 13, from 7 to 9 p.m., in room D-1. A second class will be held at Hillcrest Junior High School, 130 N. Lucia, Redondo Beach, on Wednesday, Feb. 19, from 7 to 9 p.m. Classes are conducted by John D. Young, hunter safety instructor for the California State Department of Fish and Game and the National Rifle Assn. They are sponsored by the Junior Sportsmen of American Club, a group of boys 12 to 16, who are interested in learning the correct way to use firearms.

Hunting Tips
 The courses, which require 10 hours of classroom work and two hours on the firing range, are open to boys and girls over nine years old. It includes all phases of hunting, as set up by the National Rifle Assn. Boy or girl Scout groups taking part can receive merits for gun safety and entire Scout group may be enrolled, as well as individuals. Enrollments are made through Young, 2410 Graham Ave., Redondo Beach.

ONE OF THE LAST . . . John M. Huffman of Redondo Beach is greeted by President Forrest G. Murdock as he enters El Camino College. Huffman will be one of the last students to register during the tenure of President Murdock, who has announced retirement plans for Aug. 1.

Council, Airport Board Plan Commercial Policies

Plans to bring the leasing applications of Torrance Municipal Airport up to date and begin serious negotiations for leases along Pacific Coast Hwy. and on the field were highlights of a discussion by members of the city's airport commission and the city council in a joint special meeting here Monday. Discussion of the leasing policies and other phases of airport operation came on the eve of the council's formal agreement to cancel the airport management contract now held by Collins-Dietrich, Inc., managers of the field for nearly 10 years. Among the policies agreed to by the two city bodies was one limiting motel construction on the field, and another which would permit at least two more companies to dispense aviation fuel on the field. Companies would be permitted to use mobile servicing units, the officials agreed. Present fueling is done at one point near the field administration office. Development of the Pacific Coast Hwy. frontage restaurant and commercial is envisioned by city officials. Nearly one-half mile of the frontage area has been graded and made ready for commercial development.
